

**CHOOSE ANY COLOR YOU
LIKE. ALL OF OUR PAINTS
ARE GREEN!**

Recent EPA studies estimate indoor air quality to be 3 to 5 times more toxic than outdoor air largely caused by toxic emissions of paints and finishes. The use of low-VOC paint reduces toxins that cause allergy and chemical sensitivities, reduces contaminant concentrations in landfill, groundwater and the ozone, provides easy cleanup with soap and water and produces lower odor. Low VOC paints, stains and varnishes use water as a carrier instead of petroleum-based solvents. As such, the levels of harmful emissions are lower than solvent-borne surface coatings. These certified coatings also contain no, or very low levels, of heavy metals and formaldehyde.

Gold Crest Homes **"GREEN FOOTPRINT COMMITMENT"** requires our paint trade associates to use only Behr Low VOC limited lifetime warranty paints.
